"Coming Events Cast Their Shadows Before"

"No man is good enough to rule another man, and no nation is good enough to rule another nation. For a man to rule himself is liberty, for a nation to rule itself is liberty. But for either to rule another is tyranny. If a nation robs another of its freedom it does not deserve freedom for itself and under a just God, it will not long retain it."

(Abraham Lincoln)

"If the wicked flourish and you suffer, be not discouraged. They are fattened for destruction, you are dieted for health."

(Fuller)

The outcome of the present slaughter in Europe between two imperialisms, will be mutual exhaustion and self-destruction, for which Europe and the world on the whole will be better off in the long run. Its termination will release forces long pent up, seeking expressions, that will change the face of earth and humanity. The forecast made herein is "harsh as truth" and "as uncompromising as justice" and will never fail—for it is the plan of the Eternal made manifest. Most of the events mentioned will take place not later than 1975, and all will be realized before the twentieth century has run its course.

1. Germany will be able to keep what she has taken from Poland—the territory which was hers before the world war.

2. Poland will be resurrected and will have strictly Polish territory and Polish people to enjoy the blessings of freedom and co-operation with others.

3. Slovakia, Bohemia, Moravia will be free and autonomous states, but federated with each other and co-operating with their neighbors.

4. Austria will be free internally yet federated with Germany.

5. France will be bankrupt, and so exhausted she will have internal upheavals, Communism and Fascism will weaken the country by their mutual incessant strifes, some of her African possessions will be lost to her, an independent Morocco and Algeria in time will rise from the ashes of imperialism.

6. Italy will appropriate Tunisia and strike when French exhaustion is near the breaking-point and become the paramount power in the Mediterranean sea, Spain will welcome her lost Gibraltar, but lose Spanish Morocco, which will be incorporated into a Free Morocco.

7. The Balkan States will have a friendly federation with one another including Turkey, to their great good and advantage.

8. India will be fully free to evolve according to her own ideals, her destiny, unfettered from within, unmolested from without. She will prove to be one of the greatest blessings to humanity. Burma will voluntarily join the United States of India.

9. An attempt will be made by the vanishing English Imperialism to split India into two conflicting camps, in exhorting the Punjab and Kashmir Moslems to form a federation with Afghanistan, Iran, etc., but will fail most disastrously for the British to the joy of Nationalist India and humanity lovers.
